Dental benefits made easy!

When you enroll in a DeltaCare USA¹ plan, you'll choose a primary care dentist from our network of carefully screened, private practice dentists. You must visit your primary care dentist to receive benefits.²

- No restrictions on pre-existing conditions (except work in progress)
- Access to specialty care and out-of-area emergency care

A partner in oral health

Your DeltaCare USA plan encourages regular dental care with an extensive list of covered services to help you stay healthy.

- Low or no copayments for services like cleanings and exams

Budget-friendly costs

With your DeltaCare USA plan, there are no surprises. You'll know your copayments, and your out-of-pocket costs are clearly defined before treatment begins.

- No deductibles or maximums³ for covered services
- Pay only your copayment (if any) at the time of treatment

Convenient services

We make it easy for you — there are no claim forms to complete, and no plan ID card is required to receive treatment.

- Access plan information online
- Change your primary care dentist by phone or online

LEGAL NOTICES: Access federal and state legal notices related to your plan: deltadentalins.com/about/legal/index-enrollee.html

FAQ + A

Answers to frequently asked questions about your DeltaCare USA plan

GETTING STARTED

1. How do I enroll in a DeltaCare USA plan?

You may enroll if you are an eligible employee with Full benefits status or an eligible retiree. You also may enroll eligible dependents. You may elect to participate in the plan during a Period of Initial Eligibility or an annual Open Enrollment period using an online enrollment form. For more information, visit <http://ucnet.universityofcalifornia.edu/>.

2. How do I get started using my DeltaCare USA plan?

Once we process your enrollment, we'll mail you welcome materials that will include:

- **The name, address and phone number of your selected primary care dentist:** Simply call the dental facility to make an appointment. **Important note:** In order to receive benefits under your plan, you must visit your primary care network dentist for all services. If you require treatment from a specialist, your primary care dentist will coordinate a referral for you. You can change your primary care dentist by contacting us.
- **Your Evidence/Certificate of Coverage (plan booklet):** This useful document provides a thorough description of how to use your benefits, including covered services, copayments and any limitations and exclusions of your plan.
- **An ID card:** This card is for your records only — you do not need to present it in order to receive treatment.

3. How long will it take to get an appointment with my primary care dentist?

Two to four weeks¹ is a reasonable amount of time to wait for a routine, non-urgent appointment. If you require a specific time, you may need to wait longer. Most DeltaCare USA dentists are in private group practices, which generally offer greater appointment availability and extended office hours.

4. How much will my dental treatments cost? How do I pay?

With your DeltaCare USA plan, some services are covered at no cost, while others have a copayment (amount you pay) for certain services. To find out how much a treatment will cost, refer to the “Description of Benefits and Copayments” in this brochure for a list of covered services and copayments. It’s a good idea to bring your Evidence/Certificate of Coverage to your appointment in case you need to discuss your copayment for a service with your dentist. If you have any questions about the charges for a service, please contact our Customer Service department. If you receive treatment that requires a copayment, simply pay the dental facility at the time of service.

CHOOSING A DENTIST

5. How do I select my primary care dentist?

When you enroll, you must select a primary care dentist from the DeltaCare USA network. To search for a dentist, use the “Find a Dentist” tool at deltadentalins.com and select DeltaCare USA as your network. If you do not select a dentist when you enroll, we will choose one for you.

6. Does everyone in my family have to choose the same primary care dentist?

Your family members can visit the same primary care network dentist, but you do not have to. You may collectively select a maximum of three different primary care network dentists.²

7. Can I change my primary care dentist?

Yes. You can request to change your primary care dentist at any time. Simply visit our website and log on to your Online Services account or call or write to Customer Service. Change requests received by the 21st of the month will become effective the first day of the following month.

¹ In TX, three weeks is a reasonable amount of time to wait for a routine, non-urgent appointment.

² In TX, there is no limit. Each eligible family member may select his or her own primary care network dentist.

8. My dentist says she is a Delta Dental dentist, but she isn't listed in the DeltaCare USA directory. Can I still visit her for services?

No. You must visit your selected primary care network dentist to receive benefits under this plan. Delta Dental has many networks, and participation may vary — not all Delta Dental dentists are DeltaCare USA dentists.

9. What should I do if I need to see a specialist?

If you require specialty dental care — such as oral surgery, endodontics, periodontics or pediatric dentistry — contact your primary care dentist to request a referral. Specialty dental services not performed by your selected primary care dentist must be authorized by us. You are responsible for any applicable copayments.

GENERAL PLAN INFORMATION

10. If I'm traveling, is emergency treatment covered under my plan?

You and your eligible dependents have out-of-area coverage for dental emergencies when you are more than 35 miles³ from your primary care dentist. Your out-of-area emergency benefit (typically limited to \$100 per enrollee³) is for services to relieve pain until you can return to your primary care network dentist. Standard plan limitations, exclusions and copayments may apply.

11. Can I access my plan online?

Yes. Visit deltadentalins.com/enrollees to create a free, secure Online Services account. On our website, you can access your plan benefits and ID card, select (or change) your primary care dentist — and more.

12. Does my plan cover pre-existing conditions? What about treatments that are in progress?

Treatment for pre-existing conditions (except work in progress⁴), including missing or extracted teeth, is covered under your plan. Treatment in progress includes services such as preparations for crowns or root canals, or impressions for dentures. If you started treatment before your plan's effective date, you and your prior dental carrier are responsible for any costs. Some DeltaCare USA plans may cover in-progress orthodontic treatment.

13. Does my plan cover teeth whitening?

Yes. External bleaching is a benefit under your DeltaCare USA plan. Review your plan booklet for more information and talk to your dentist about your options.

14. Does my plan cover tooth-colored fillings and crowns?

Yes. Porcelain and other tooth-colored materials are included in this plan.

15. Does my plan cover TMJ treatment?

Yes. Your plan provides Temporomandibular (jaw) Joint (TMJ) coverage. Your plan will pay 100% of the dentist's usual fees or of the fees actually charged for all covered TMJ procedures. TMJ benefits are limited to occlusal guards or occlusal orthotic devices provided by a licensed dentist, when necessary and customary according to the standards of generally accepted dental practice, and only when provided for the treatment of TMJ dysfunction.

³ In TX, there is no limit on the number of miles or on the dollar amount per emergency.

⁴ In TX, there is no exception for work in progress for covered DeltaCare USA benefits.

FOOTNOTES

¹ Porcelain and other tooth-colored materials on molars are considered a material upgrade with a maximum additional charge to the Enrollee of \$150.00.

- ² Replacement is subject to a limitation requiring the existing denture to be 3+ years old.
- ³ Optional is defined as any alternative procedure presented by the Contract Dentist that satisfies the same dental need as a covered procedure, is chosen by the Enrollee, and is subject to the limitations and exclusions of the program. The applicable charge to the Enrollee is the difference between the Contract Dentist's "filed fee" for the Optional procedure and the "filed fee" for the covered procedure, plus any applicable Copayment for the covered procedure. Optional treatment does not apply when alternative choices are benefits. "Filed fees" means the Contract Dentist's fees on file with Delta Dental. Questions regarding the DeltaCare USA program should be directed to Delta Dental's Customer Service department at 800-422-4234.
- ⁴ In the event comprehensive orthodontic treatment is not required or is declined by the Enrollee, a fee of \$25.00 will apply. The Enrollee is also responsible for any incurred orthodontic diagnostic record fees.
- ⁵ Includes after delivery adjustments and tissue conditioning, if needed, for the first six months after placement, if the Enrollee continues to be eligible and the service is provided at the Contract Dentist's facility where the denture was originally delivered.
- ⁶ Includes adjustments and/or office visits up to 36 months. After ³⁶ months, a monthly fee of \$75.00 applies.
- ⁷ A Benefit for permanent teeth only.
- ⁸ Listed Copayment covers up to ³⁶ months of active orthodontic treatment excluding the services listed for D⁸⁹⁹⁹ "Start-up fee." Beyond 36 months of active treatment, an additional monthly fee of \$75.00 applies.
- ⁹ If an indirectly fabricated post and core, inlay or onlay is made of high noble metal, an additional fee up to \$100.00 per tooth will be charged for the upgrade.
- ¹⁰ Replacement is subject to a limitation requiring the existing restoration to be 3+ years old.
- ¹¹ Replacement is subject to a limitation requiring the existing bridge to be 3+ years old.
- ¹² Limited to 1 per denture during any 12 consecutive months.

SCHEDULE B

Limitations of Benefits

1. The frequency of certain Benefits is limited. All frequency limitations are listed in *Schedule A, Description of Benefits and Copayments*.
2. Benefits for sealants include the application of sealants only to permanent first and second molars with no decay, with no restorations and with the occlusal surface intact, for first molars through age nine and second molars through age 15. Benefits for sealants do not include the repair or replacement of a sealant on any tooth within three years of its application.
3. If a porcelain margin is also chosen by the Enrollee for a covered porcelain-fused-to-metal crown, the maximum additional cost for this laboratory upgrade is \$75.00.
4. The replacement of an existing inlay, onlay, crown, fixed partial denture (bridge) or a removable full or partial denture is covered when:
 - a. The existing restoration/bridge/denture is no longer functional and cannot be made functional by repair or adjustment, **and**
 - b. Either of the following:
 - The existing non-functional restoration/bridge/denture was placed three or more years prior to its replacement, **or**
 - If an existing partial denture is less than three years old, but must be replaced by a new partial denture due to the loss of a natural tooth, which cannot be replaced by adding another tooth to the existing partial denture.
5. A fixed bridge is considered standard dental treatment when it is necessary to replace one missing permanent anterior tooth in a person 16 years old or older. Such treatment will be covered if the patient's oral health and general dental condition permits.

Fixed bridges used to replace missing posterior teeth are considered Optional when the abutment teeth are dentally sound and would be crowned only for the purpose of supporting a pontic. A fixed bridge used under these circumstances is considered Optional dental treatment.

Fixed bridges are not a benefit when provided in connection with a partial denture on the same arch. If provided, it is considered Optional treatment.

Replacement of an existing nonfunctional bridge is limited to once in a three year period and shall be covered only when the replacement duplicates the original bridge.

Fixed bridges are not a benefit for Enrollees under the age of 16. A fixed bridge under these circumstances is considered Optional dental treatment.

Optional treatment procedures are defined under Limitation #9.

6. Interim partial dentures (stayplates), in conjunction with fixed or removable appliances, are limited to:
 - The replacement of extracted anterior teeth for adults during a healing period when the teeth cannot be added to an existing partial denture **or**
 - The replacement of permanent tooth/teeth for children under 16 years of age.
7. Benefits provided by a pediatric Dentist are limited to children through age seven following an attempt by the assigned Contract Dentist to treat the child and upon prior authorization by Delta Dental, less applicable Copayments. Exceptions for medical conditions, regardless of age limitation, will be considered on an individual basis.
8. In cases of accidental injury, benefits available are described in *Schedule B, Dental Accident Benefits*. Damages to the hard and soft tissues of the oral cavity from normal masticatory (chewing) function, exclusive attrition and normal wear, will be covered as described in *Schedules A, Description of Benefits and Copayments; and B, Limitations and Exclusions of Benefits*.

9. An Optional procedure is defined as any alternative procedure presented by the Contract Dentist that satisfies the same dental need as a covered procedure, is chosen by the Enrollee, and is subject to the limitations and exclusions of the program. The applicable charge to the Enrollee is the difference between the Contract Dentist's "filed fee" for the Optional procedure and the "filed fees" for the covered procedure, plus any applicable Copayment for the covered procedure. Optional treatment does not apply when alternative choices are benefits.
10. General anesthesia/intravenous conscious sedation and the services of a special anesthesiologist, except upon preauthorization by Delta Dental for covered services only and receipt of a written authorization from the enrollee's physician for:
 - enrollees who have a disability (such as Down's Syndrome, Autism, Ausperger's Syndrome, etc.) that necessitates the use of anesthesia to provide treatment.
 - medically necessary extractions.
11. The Contract Dentist shall have the right to refuse treatment to an Enrollee who continually fails to follow a prescribed course of treatment.
12. If implants are utilized, Delta Dental will allow the cost of a standard full or partial denture toward the cost of appliances constructed thereon (Optional treatment formula). The patient is responsible for the Optional treatment fee if implants are used. The DeltaCare USA Plan does not cover the surgical removal of implants.
13. The cost to an Enrollee receiving orthodontic treatment whose coverage is cancelled or terminated for any reason will be based on a maximum of \$1,400.00 for the treatment plan. The Contract Orthodontist will prorate the amount for the number of months remaining to complete treatment. The enrollee makes payment directly to the Contract Orthodontist as arranged.

Should this Contract be terminated by either party due to breach or non-renewal at the end of any applicable term, the provision of the above paragraph shall apply with respect to an Enrollee being treated for orthodontic work which is not completed at the date of termination. The Enrollee's payment shall be no more than \$1,000.00.

14. Orthodontic treatment in progress is limited to new DeltaCare USA Enrollees who, at the time of their original effective date, are in active treatment started under their previous employer sponsored dental plan, and continue to be eligible under the DeltaCare USA program. Active treatment means tooth movement has begun. An enrollee and/or dependent who has had only models taken or has not been banded is not considered to be in active treatment. Enrollees are responsible for all Copayments and fees subject to the provisions of their prior dental plan. Delta Dental is financially responsible only for amounts unpaid by the prior dental plan for qualifying orthodontic cases.
15. Three recementations or replacements of a bracket/band on the same tooth or a total of five rebracketings/rebandings on different teeth during the covered course of treatment are Benefits. If any additional recementations or replacements of brackets/bands are performed, the Enrollee is responsible for the cost at the Contract Orthodontist's usual fee.
16. Comprehensive orthodontic treatment (Phase II) consists of repositioning all or nearly all of the permanent teeth in an effort to make the Enrollee's occlusion as ideal as possible. This treatment usually requires complete fixed appliances; however, when the Contract Orthodontist deems it suitable, a European or removable appliance therapy may be substituted at the same Copayment amounts as for fixed appliances.

"Filed fees" means the Contract Dentist's fees on file with Delta Dental. Questions regarding these fees should be directed to Delta Dental's Customer Service department at 800-422-4234.

Exclusions of Benefits

1. Any procedure that is not specifically listed under *Schedule A, Description of Benefits and Copayments*.
2. Any procedure that in the professional opinion of the Contract Dentist:
 - a. has poor prognosis for a successful result and reasonable longevity based on the condition of the tooth or teeth and/or surrounding structures, **or**
 - b. is inconsistent with generally accepted standards for dentistry.

3. Services solely for cosmetic purposes, with the exception of procedure D9975 (External bleaching for home application, per arch), or for conditions that are a result of hereditary or developmental defects, such as cleft palate, upper and lower jaw malformations, congenitally missing teeth and teeth that are discolored or lacking enamel, except for the treatment of newborn children with congenital defects or birth abnormalities.
4. All related fees for admission, use, or stays in a hospital, out-patient surgery center, extended care facility, or other similar care facility.
5. Loss or theft of full or partial dentures, space maintainers, crowns and fixed partial dentures (bridges).
6. Dental expenses incurred in connection with any dental procedure started before the Enrollee's eligibility with the DeltaCare USA program. Examples include: teeth prepared for crowns, root canals in progress, orthodontics, unless qualified for the orthodontic treatment in progress limitation 14.
7. Prescription drugs.
8. Dental services received from any dental facility other than the assigned Contract Dentist, a preauthorized dental specialist, or a Contract Orthodontist except for *Emergency Services* as described in the Contract and/or Evidence of Coverage.
9. Consultations for non-covered benefits.
10. Porcelain crowns, porcelain fused to metal or resin with metal type crowns and fixed partial dentures (bridges) for children under 16 years of age.
11. Procedures, appliances or restoration if the purpose is to change vertical dimension, or to diagnose or treat abnormal conditions of the temporomandibular joint (TMJ).
12. An initial treatment plan which involves the removal and reestablishment of the occlusal contacts of 10 or more teeth with crowns, onlays, fixed partial dentures (bridges), or any combination of these is considered to be full mouth reconstruction under the DeltaCare USA program. Crowns, onlays and fixed partial dentures associated with such a treatment plan are not covered Benefits. This exclusion does not eliminate the benefit for other covered services.
13. Precious metal for removable appliances, metallic or permanent soft bases for complete dentures, porcelain denture teeth, precision abutments for removable partials or fixed partial dentures (overlays, implants, and appliances associated therewith) and personalization and characterization of complete and partial dentures.
14. Extraction of teeth, when teeth are asymptomatic/non-pathologic (no signs or symptoms of pathology or infection), including but not limited to the removal of third molars and orthodontic extractions.
15. Services and benefits provided by the Employee, or any eligible family member, or by the spouse, child, brother, sister, parent, or other relative of the Employee, spouse, or other dependents.
16. Lost, stolen or broken orthodontic appliances.
17. Retreatment of orthodontic cases.
18. Changes in orthodontic treatment necessitated by accident of any kind.
19. Surgical procedures incidental to orthodontic treatment.
20. Myofunctional therapy.
21. Phase I orthodontics, as well as activator appliances and minor treatment for tooth guidance and/or arch expansion. Phase I orthodontics is defined as early treatment including interceptive orthodontia prior to the development of late mixed dentition.
22. Extractions solely for the purpose of orthodontics.
23. Composite or ceramic brackets, lingual adaptation of orthodontic bands and other specialized or cosmetic alternatives to standard fixed and removable orthodontic appliances.
24. Transfer after banding has been initiated.

Temporomandibular Joint Benefit

Delta Dental will pay 100% of the Dentist's usual fees or of the fees actually charged for all covered temporomandibular joint (TMJ) procedures, as noted herein. TMJ benefits are intended only for the treatment of temporomandibular (jaw) joint and are limited to the procedures noted below when provided by a licensed dentist as necessary and customary according to the standards of generally accepted dental practice and only when provided for the treatment of TMJ dysfunction:

- D7880 Occlusal orthotic device, by report
- D9310 Consultation (diagnostic service provided by dentist or physician other than practitioner providing treatment)
- D9940 Occlusal guard, by report
- D9951 Occlusal adjustment - limited
- D9952 Occlusal adjustment - complete

Limitations and Exclusions of TMJ Benefits

TMJ benefits are subject to *Schedule B, Limitations and Exclusions of Benefits*, and any definitions and/or other terms of the DeltaCare USA Group Dental Service Contract not in conflict with the express terms of this benefit in addition to the following:

1. The replacement of lost, missing or stolen appliances furnished in whole or in part under this benefit or any other TMJ benefit are not covered.
2. Repair and replacement of covered TMJ devices may be made only after three years have elapsed following any prior provision of such appliances under this program or any other program, except when it is determined that there is such extensive change in the patient's condition (such as the loss of a tooth or teeth) that the appliance cannot be made functional. If the TMJ device is not functional resulting from abuse or alteration by the enrollee, this benefit is excluded.
3. Fixed appliances and restorations provided solely for the treatment of TMJ are excluded.
4. Diagnostic procedures not otherwise covered under the Group Dental Service Contract are excluded.
5. Services for bruxism (grinding of teeth) unrelated to TMJ dysfunction are not covered.

Dental Implants

While dental implant procedures are not a benefit under your program, the DeltaCare USA program allows for an optional benefit toward prosthetic appliances placed on implants. Please review limitation #12 in this booklet. Clarify the charges with your assigned network dentist prior to starting treatment. Not all network dentists provide this service, and this optional benefit is not available out-of-network.

Dental Accident Benefits

An accidental injury is damage to the hard and soft tissue of the mouth caused directly and independently of all other causes by external forces. Damage to the hard and soft tissue of the mouth from normal chewing function is covered under *Schedule A, Description of Benefits and Copayments*.

Dental Accident is an external blow or other trauma (fall, fist, car accident, gunshot wound, etc.) that would cause severe damage to the dentition, or an internal accident such as biting into glass or a stone that causes severe tooth damage.

Services necessary as a result of a Dental Accident may be covered as primary under your medical coverage. All claims should first be submitted to your medical carrier for review and possible payment, prior to submitting them under the DeltaCare USA plan.

Your medical plan's customer service representatives will be able to confirm the coverage for Dental Accidents that your medical plan provides.

If services necessary as a result of a dental accident are not covered under your medical coverage, Delta Dental will pay up to 100% of the Contract Dentist's "filed fees," for expenses an Enrollee incurs for an accidental injury, less any applicable Copayments.

Accident injury benefits include the following procedure in addition to those listed in *Schedule A, Description of Benefits and Copayments*.

CODE

D7270 Tooth reimplantation and/or stabilization of accidentally evulsed or displaced tooth and/or alveolus - includes splinting and/or stabilization.

Payment of accident injury benefits is subject to *Schedule B, Limitations and Exclusions of Benefits*.

"Filed fees" means the Contract Dentist's fees on file with Delta Dental. Questions regarding these fees should be directed to Delta Dental's Customer Service department at 800-422-4234.
