Article 6: LABOR MANAGEMENT MEETINGS

In the interest of fostering a cooperative approach to resolving problems, the Union and the University shall form a labor-management committee made up of no less than three (3) representatives of each party. The Union and the University agree to hold labor-management meetings on a quarterly basis upon written request by either party. These meetings will occur at a mutually acceptable time, date and place on the UCSF Medical Center campus to discuss issues related to working conditions, facilities and items related to this agreement. The Union shall contact University Labor Relations to initiate scheduling of the meetings. Any request for a labor-management meeting and the setting of agenda items by either party should be done with enough advance notice to allow for necessary individuals to attend.
