PART II

General Eligibility Provisions
1. Eligibility

A. Employee and Postdoctoral Scholar Eligibility

Eligible Employees and Eligible Postdoctoral Scholars may qualify for one of several benefit packages (Full, Mid-level, Core, Postdoctoral Scholar Benefits Program) or no benefits at all. The specific package(s) applicable to each plan, as well as operational details and eligibility examples are listed in Administrative Supplement II-A.

1. Initial Eligibility Determination – In order to become initially eligible for benefits, the newly hired Employee’s or Postdoctoral Scholar’s appointment is evaluated using the following factors: appointment type, membership in UCRP, appointment percentage, and appointment duration. If the employee or postdoctoral scholar does not meet the criteria, the employee or postdoctoral scholar is not initially eligible for benefits.

   a. Appointment Type – The “appointment type” defines the eligible group to which an Employee/Postdoctoral Scholar must belong and identifies the criteria that apply in order to be considered eligible.

      The following Appointment Types are eligible under Faculty/Staff Group A Percentage and Duration criteria in the chart below:

      • Appt. Type 1: Contract
      • Appt. Type 2: Regular/Career
      • Appt. Type 3: Limited
      • Appt. Type 5: Academic (except those with a CTO of 400–499), including Unit 18 employees under job code 001550
      • Appt. Type 7: Partial Year/Career
      • Appt. Type 8: Floater

      The following Appointment Types are eligible under Postdoctoral Scholar Group A Percentage and Duration criteria in the chart below:

      • Postdoctoral Scholar – Employee (job code 003252)
      • Postdoctoral Scholar – Fellow (job code 003253)
      • Postdoctoral Scholar – Paid Direct (job code 003254)
      • Postdoctoral Scholar – Nonexempt Employee (job code 003255)
      • Postdoctoral Scholar – Interim Employee (job code 003256)

      The following Appointment Types are eligible under Group B Percentage and Duration criteria in the chart below:

      • Appt. Type 4: Casual/Restricted (Students) \(^1\)
      • Appt. Type 5: Academics with a CTO of 400–499

\(^1\) A specific group of employees within Appt. Type 4 may participate in the non-student UC-sponsored Dependent Care Flexible Spending Account (DepCare FSA) plan for faculty and staff Employees. See Section 9002 in Flexible Spending Account for additional detail.
1. Eligibility A. Employee and Postdoctoral Scholar Eligibility

- Appt. Type 6: Per Diem
- Seasonal Employees
- Graduate Students
- Those paid solely on a by-agreement basis, or by stipend, with the exception of Unit 18 employees under job code 001550
  - Employees who have BYA in their job code description are considered Group B employees if they are paid a flat amount for their services. This does not include employees whose salary plan is by agreement.

The following Individuals belonging to groups listed below are not eligible for coverage under the Faculty and Staff Benefits Program’s or the Postdoctoral Scholars’ Benefits Program’s group health and welfare plans. These categories include but are not limited to the following:

- Individuals not classified by the University as Employees;
- Individuals classified by the University as Employees of any entity other than the University;
- Individuals classified by the University as an independent contractor or Independent consultant, or non-Employee consultant;
- Individuals classified by the University as a Contingent Worker;
- Residents/Housestaff/Fellows offered benefits through locally managed benefit programs or UCHealth;
- Individuals who have been separated and subsequently appointed to a “without salary” position in a WOS job title (e.g., Emeritus Professor, WOS);

2 An individual who is not classified by the University in its discretion as an employee under Section 3121(d) of the Internal Revenue Code (relating to the definition of “employee”) (including, but not limited to, an individual classified by the University as an independent contractor or independent consultant or non-employee consultant) and an individual who is classified by the University, in its discretion, as an employee of any entity other than the University or its affiliate, Hastings College of the Law, does not meet the definition of Eligible Employee and is ineligible for benefits under the Faculty and Staff Benefits Program’s or the Postdoctoral Scholars' Benefits Program’s group health and welfare plans, even if the classification by the University is determined to be erroneous, or is retroactively revised.

For the purpose of the preceding sentence, except for postdoctoral fellows (job code 003253) and postdoctoral scholars “paid direct” (job code 003254), an individual shall be treated as not “classified as an employee” for any period if the payments to that individual by the University for services are not initially treated by the University as subject to the federal withholding taxes and reporting obligations that apply to payments of “wages” to employees under Section 3121(d) of the Internal Revenue Code.

For avoidance of doubt, pursuant to the applicable collective bargaining agreement, postdoctoral fellows (job code 003253) and postdoctoral “paid direct” (job code 003254) are eligible for Postdoctoral Scholars’ Benefit Program’s group health and welfare plans even if postdoctoral fellows and postdoctoral “paid direct” do not receive a Form W-2.

The foregoing sets forth a clarification of the intention of the University regarding participation in the Plan for any Plan Year, including Plan Years prior to the amendment of this definition of “Eligible Employee”.

January 1, 2024
1. Eligibility

A. Employee and Postdoctoral Scholar Eligibility

- Individuals appointed in one of the job codes in the Volunteer Clinical Professor series (CTO 346) (job code 002017, 002037, 002057, or 002077);
- Graduate Student Research (GSR) Fellows and Trainees, who are treated as non-employees based on compensation as determined by the University; GSR Fellows and Trainees are categorically ineligible for health and welfare benefits because they are non-employees;  

b. Membership in UCRP or Retirement Choice Program –

i. **UCRP** – Employees in a UCRP-eligible appointment are eligible for the Full benefits package, as of the first day of membership in a UCRP-eligible appointment. Historically, small, defined groups of other retirement systems’ members (CalPERS, FCSRS, FERS, CalSTRS, SCERS, and OCERS) were also eligible for the Full benefits package – see Administrative Supplement II-B for the definition of each group.

ii. **Retirement Choice Program** – Employees in an appointment that is eligible for the Retirement Choice Program are eligible for the Full benefits package, as of the first day of eligibility for Retirement Choice.

If there is no retirement plan membership, analysis of appointment percentage and duration is required to establish eligibility for a benefits package.

c. **Appointment Percentage and Duration** – Employees and Postdoctoral Scholars are eligible for the benefits package for which appointment percentage and duration qualify, based on the percentage and duration charts below. If no end date specified, the duration is considered indefinite for purposes of benefit eligibility.

The appointment percentage and duration for Short Work Break will not be included when evaluating eligibility.

---

3 Effective 12/23/22, Graduate Student Research Fellows and Graduate Student Research Trainees under job codes to be determined shall be treated as not “classified as an employee” for any period if the payments to that individual by the University for services are not initially treated by the University as subject to the federal withholding taxes and reporting obligations that apply to payments of “wages” to employees under Section 3121(d) of the Internal Revenue Code.
## GROUP A FACULTY/STAFF PERCENTAGE and DURATION CHART: INITIAL ELIGIBILITY

<table>

2. Appointment Changes, Consecutive Appointments, Variable Appointments, and Concurrent Appointments

a. FTE and/or Duration Changes

1. Appointment Extension

a. If an Employee or Postdoctoral Scholar has their current appointment percentage increased and/or duration extended and the change results in a higher level benefits package, the effective date of the new benefits package will be the date the transaction is entered.\n
For example: Employee or Postdoctoral Scholar has one appointment at 100% from 01/01/22 until 05/31/22. Determine benefits eligibility on 01/01/22 using only the 5-month duration. An extension of the appointment is effective 03/01/22, with a new end date of 12/31/22. On 03/01/22, consider the new appointment of 01/01/22 – 12/31/22 and re-determine the benefits package, effective 03/01/22

2. Appointment Decrease – If an Employee or Postdoctoral Scholar has their current appointment percentage reduced and/or their duration
3. Consecutive Appointments

a. Consecutive Appointments Known at Date of Hire: If an Employee or Postdoctoral Scholar is given multiple appointments that run consecutively without an employment break, and both appointments are known at the time of hire, the appointment percentages are evaluated. If both appointment percentages are 50% or more, the appointment durations are combined to determine the benefits package, effective with the date of hire. If one or more the appointment percentages are less than 50%, the individual appointments are evaluated to determine benefit eligibility. If the employee meets benefit eligibility, the effective date will be the first day of the benefit eligible appointment.

If there is a one day employment break between the Consecutive Appointments, appointments will not be combined for purposes of determining benefit eligibility.

Example where both appointments are 50% or more: An employee has two consecutive appointments. The first appointment starts 01/01/22 and ends 05/31/22, and is 60%. The second appointment starts 06/01/22 and ends 12/31/22, and is 80%. Since both appointments are over 50%, the appointment durations can be combined. The combined appointments make the employee eligible for Full Benefits, effective 01/01/22.

Example where one appointment is less than 50%: An employee has two consecutive appointments. The first appointment starts 01/01/22 and ends on 05/31/22, and is 40%. The second appointment starts on 06/01/22 and ends 12/31/22 at 60%. Since one appointment is below 50%, the individual appointments are evaluated to determine benefit eligibility. The first appointment does not meet initial eligibility requirements. The second appointment does meet eligibility for Core Benefits, effective 06/01/22.

b. Consecutive Appointments Acquired: If an Employee or Postdoctoral Scholar acquires a consecutive appointment that will run without an employment break, benefit eligibility is re-evaluated to determine if the employee is eligible for a new benefits package. If the first appointment’s percentage is less than 50%, then benefit eligibility will be re-evaluated solely on the subsequent appointment. If the first appointment’s percentage was 50% or more, the appointment durations will be combined when eligibility is re-evaluated. The appointment percentage threshold of 50% or more will be deemed satisfied.
If the employee becomes newly eligible for Core or Mid-level Benefits or a postdoctoral scholar becomes newly eligible for Postdoctoral Scholar Benefits, the effective date of the new benefits package will be the start date of the subsequent appointment. If the employee becomes eligible for Full Benefits, the effective date of the new benefits package will be the date the subsequent appointment was acquired.

Example where first appointment is less than 50%: The employee has one appointment that starts 01/01/22 and ends 05/31/22, set at 33%. On 02/01/22, the employee acquires a second appointment that starts on 06/01/22 and ends 12/31/22 at 50%. Since the previous appointment is below 50%, the duration of the previous appointment is disregarded. Benefit eligibility is re-evaluated based on the second appointment. Since the acquisition of the second appointment results in a benefits package of Core Benefits, the effective date of Core Benefits will be 06/01/22.

Example where both appointments are 50% or more: An employee has one appointment that starts of 01/01/22 and ends on 05/31/22, set at 60%. On 03/1/2022, the employee acquires a second appointment that starts on 06/01/22 and ends on 12/31/22, set at 50%. The first appointment meets eligibility for Core Benefits. On 03/01/22, benefit eligibility will need to be re-determined. Since the first appointment is 50% or more, the first appointment’s duration will be combined with the second appointment’s duration. Because both appointments have an appointment percentage of 50% or more, the employee satisfies the appointment percentage threshold for 50% or more. If both appointments meet eligibility for UCRP, the employee is eligible for Full Benefits, effective 03/01/22. If neither appointment or only one appointment meets eligibility for UCRP, the employee is eligible for Mid-level Benefits, effective 06/01/22.

4. Variable Time Appointments – Unit 18 Faculty Only

a. Academic Year Appointments

i. If a Unit 18 Faculty has a full academic year appointment (July 1 through June 30) with different levels of percent time (greater than zero) in each term, the appointment should be treated as a variable time appointment for health and welfare benefits purposes and benefits eligibility will be based on the average percent time for all terms for the academic year.

For example: A Unit 18 Faculty has a 33% appointment during the Fall, 100% during the Winter, and 67%
during the Spring. The average (67%) is used. In this case, the Unit 18 Faculty is eligible for Full Benefits.

ii. If a Unit 18 Faculty has an academic year appointment with different levels of percent time (greater than zero) and the levels of percent changes during the academic year appointment, benefit eligibility will be re-determined based on the average percent time for all terms for the academic year. If the Unit 18 Faculty experiences an increase in appointment percentage that makes them eligible for a new benefit package, the new benefit package will be effective the first day of the month following the benefit eligibility re-determination. If the Unit 18 Faculty experiences a decrease in appointment percentage, the employee will not experience a change in benefit package.

b. Term-By-Term Appointments - If a Unit 18 Faculty has employment commitments term-by-term (i.e. subsequent quarters are not known at the time of first quarter), the initial appointment for the term must be evaluated separately. Additional appointments are treated as employees acquiring consecutive appointments. See A.1.e.ii.2. for details.

5. Concurrent Appointments

a. Concurrent Appointments Known at Date of Hire, and Both Appointments are either Group A or Group B: If the Employee or Postdoctoral Scholar is given multiple appointments that run concurrently, add the appointments together to determine if the employee is eligible for a higher level benefits package. The appointment percentages will be added together to determine the appointment percentage used for eligibility. (Appointments should never total more than 100%). The appointment duration will be determined based on the time where the appointments overlap.

For example: Employee has two appointments. The first appointment starts on 01/01/22 and ends on 12/31/22, and is set at 42%. The second appointment starts on 01/01/22 and ends on 06/30/22, and is set at 33%. The combined appointment percentage is 75%. The combined appointment duration is 6 months. The employee is eligible for Core Benefits under Group A, based on a combined appointment percentage and duration of 73% for 6 months.

b. Concurrent Appointments Acquired After Date of Hire and Both Appointments are either Group A or Group B: If an Employee or Postdoctoral Scholar is given multiple appointments that run concurrently without an employment break, but the second appointment is added after the first, re-
evaluate eligibility to determine if the employee is eligible for a higher level benefit package. The appointment percentage will be added together to determine the appointment percentage. The appointment duration will be determined based on the time where the appointments overlap.

For example: Employee’s first appointment starts on 01/01/22 and ends on 12/31/22, and is set at 45%. Employee is eligible for Core Benefits on 01/01/22. On 02/01/22, employee acquires appointment that starts on 04/01/22 and ends 12/31/22, and is set at 55%. The combined appointment percentage is 100%. The combined appointment duration is 9 months. The employee is eligible for Mid-Level Benefits under Group A effective 04/01/22, based on the combined appointment percentage and duration of 100% for 9 months.

c. Concurrent Commingled Group A and Group B Appointments Known at Date of Hire: If an Employee is given multiple appointments whereby one appointment is a Group A appointment, and the other appointment is a Group B appointment, evaluate if the individual appointments meet the eligibility thresholds of either Group A or Group B. If eligibility is not met, combine the appointments, per A.1.e.iv.1. to determine if eligibility under Group B is met. If Group B eligibility is met, award Core Benefits.

For example: Employee has 2 appointments. The first appointment is a Group A appointment, starts on 01/01/22 and ends of 06/30/22, and is set at 35%. The second appointment is a Group B appointment, starts on 01/01/22 and ends on 12/31/22, and is set at 45%. Neither appointment meets eligibility for benefits under Group A or Group B. The combined appointment percentage of 75% for 6 months meets eligibility for Core Benefits under Group B. The effective date for benefits will be 01/01/22.

d. Concurrent Commingled Group A and Group B Appointments Acquired After Date of Hire: If an Employee is given multiple appointments whereby one appointment is a Group A appointment, and the other appointment is a Group B and the appointment is acquired after the employee’s Date of Hire, combine the appointments, per A.1.e.iv.1. to determine if eligibility under Group B is met. If the employee was already eligible for benefits based on the previous appointment alone, the employee remains eligible for their current benefit package. If the employee becomes newly eligible for benefits based on meeting the Group B criteria, award Core Benefits.

Combined Appointments Meet Eligibility Example: Employee’s Group B appointment starts on 01/01/22 and ends on 12/31/22, and is set at 50%. On 07/01/22, employee acquires
1. Eligibility

A. Employee and Postdoctoral Scholar Eligibility

a Group A appointment at 33%, effective 07/01/22 – 12/31/22. Since the employee did not meet initial eligibility for Group B, benefit eligibility will need to be re-evaluated based on the newly acquired appointment. The combined appointment percentage of 83% for 6 months meets eligibility for Core Benefits under Group B. The effective date for benefits will be 07/01/22.

Individual Appointment Meets Eligibility Example: Employee’s Group A appointment starts on 01/01/22 and ends on 12/31/22, and is set at 50%. On 07/01/22, employee acquires a Group B appointment at 33%, effective 07/01/22 – 12/31/22. Since the employee already meets eligibility for Full Benefits based on the Group A appointment, eligibility does not need to be re-evaluated based on the newly acquired appointment.

6. Concurrent Postdoctoral Scholar and Faculty/Staff Appointments: If an Employee has concurrent appointments in both a Faculty/Staff position and in a Postdoctoral Scholar position, assign the applicable benefits package per a. and b. below.

a. Postdoctoral Scholars **Already** Enrolled in the Postdoctoral Scholar Benefits Program:
   
i. If the Faculty/Staff appointment(s) alone renders the Postdoctoral Scholar eligible for Full Benefits, the Postdoctoral Scholar must enroll in Full Benefits under the Faculty/Staff Benefits Program and disenroll from the Postdoctoral Scholar Benefits Program.
   
ii. If the Faculty/Staff appointment(s) alone renders the Postdoctoral Scholar eligible for Mid-Level, Core, or No Benefits under the Faculty/Staff Benefit Program, the Postdoctoral Scholar must remain enrolled in the Postdoctoral Scholar Benefits Program.

b. Postdoctoral Scholars **Not Enrolled** in the Postdoctoral Scholar Benefits Program
   
i. Add all appointments together to determine the total percentage and duration. If the combined appointments do not meet Initial Eligibility under the Faculty/Staff Benefits Program or the Postdoctoral Scholar Benefits Program, the Postdoctoral Scholar remains ineligible for health and welfare benefits.
   
ii. If the combined appointments meet Initial Eligibility for health and welfare benefits under the Faculty/Staff Benefits Program and/or the Postdoctoral Scholar Benefits Program, the Postdoctoral Scholar will be
awarded the most generous benefits package, based on the hierarchy listed below:

- Full Benefits under Faculty/Staff if Faculty/Staff appointment(s), on their own, meets eligibility
- Postdoc Benefits under Postdoctoral Scholar Benefits Program
- Mid-Level Benefits under Faculty/Staff if the faculty/staff appointment is a Group A appointment
- Core Benefits under Faculty/Staff, using the eligibility criteria applicable to the faculty/staff appointment

3. **1000/750 Hour Rule**

   a. **Newly Eligible for UCRP** – Employees who are ineligible for benefits or eligible for Mid-Level or Core Benefits gain eligibility for UCRP based on the accumulation of 1,000 eligible hours – or 750 hours for a Non-Senate Instructional (Unit 18, or IX unit) appointee - in a rolling 12-month period. By becoming eligible for UCRP, employees also become newly eligible for Full Benefits.

   b. **Already Eligible for UCRP** – Employees who are already eligible for UCRP but are ineligible for benefits or eligible for Mid-Level or Core Benefits become newly eligible for Full Benefits based on the accumulation of 1,000 eligible hours or 750 hours for a Non-Senate Instructional (Unit 18 or IX unit) appointment in a rolling 12-month period.

   c. **SMP** – If a Full Benefits Eligible employee does not meet or exceed an average weekly hours of service threshold of 17.5, but has 1000/750 hours on the effective date of disenrollment, the employee will be allowed to continue enrollment in Full Benefits.

   d. **Rehire** – For eligibility of an employee rehired following an employment break, the accumulation of the 1000/750 hours will be based on the 12 months preceding the date of appointment. For employees who are rehired solely into a Group B appointment or rehired as a Rehired Retiree, the accumulation of 1000/750 hours in the 12 months preceding the rehire does not apply and will not meet establish eligibility for Full Benefits.

4. **Initial Eligibility/Initial Ineligibility**

   a. **Beginning Benefits Eligibility (BBE)** – The Beginning Benefits Eligibility period is the period of time between a new employee’s or postdoctoral scholar’s start date at the University and December 31 following the completion of a full Standard Measurement Period (described below), and applies only to employees and postdoctoral scholars who become **initially eligible** for a new benefit package. Benefits will continue throughout the BBE. For example, a monthly paid employee or postdoctoral scholar hired on April 1, 2023 will complete a BBE on December 31, 2025. The BBE does not end
on December 31, 2024 because the employee or postdoctoral scholar did not complete a full Standard Measurement period by December 31, 2024. Benefits for the employee or postdoctoral scholar start on April 1, 2023 and continue through December 31, 2025.

b. **Initial Measurement Period** – The Initial Measurement Period is the period of time between a new employee’s or postdoctoral scholar’s start date at the University and his/her one year anniversary of hire, and applies only to employees or postdoctoral scholars who are *initially ineligible* for benefits under either Group A or Group B. Upon completion of the IMP, UC will calculate the employee’s Average Weekly Hours of Service to determine if benefits will be offered during the following Stability Period.

For example, a monthly paid employee or postdoctoral scholar hired on April 1, 2023 will complete an IMP on March 31, 2024. During the month of April 2024, the employee or postdoctoral scholar will be measured to determine their Average Weekly Hours of Service.

c. **Exceptions**

1. Postdoctoral Scholar Paid Directs and Postdoctoral Scholar Fellows are eligible for benefits based solely on their appointment percentage and duration, and, so long as the appointment percentage and duration does not change, retain eligibility throughout their appointment.

Postdoctoral Scholar Paid Directs and Postdoctoral Scholar Fellows will not be re-assessed for eligibility at an IMP, even if the Postdoctoral Scholar Fellow or Postdoctoral Scholar Paid Direct is initially ineligible for benefits.

Postdoctoral Scholars who have been separated and subsequently appointed to a “without salary” position for purposes of research affiliation (e.g., Emeritus Professor, WOS)

2. Individuals who have been separated and subsequently appointed to a position with a Without Salary Rate Code for purposes of research affiliation, individuals who have been appointed in a job code with “WOS” in the description, or individuals who have been appointed in a job code in the Volunteer Clinical Professor series (CTO 346).

3. Graduate Student Researcher Fellows and Graduate Student Researcher Trainee job codes.

5. **Continuing Eligibility/Continuing Ineligibility** – After determining an employee’s or postdoctoral scholar’s initial eligibility or initial ineligibility for benefits, the employee or postdoctoral scholar is re-assessed on a yearly basis to determine the following:

- Continuing eligibility for benefits, or
- Continuing ineligibility for benefits, or
1. Eligibility

A. Employee and Postdoctoral Scholar Eligibility

- Becoming newly eligible for benefits.

The re-assessment is done when an employee or postdoctoral scholar has completed a full IMP or SMP.

a. **Initial Measurement Period** – For employees or postdoctoral scholars who were initially ineligible for benefits, UC will determine the employee’s or postdoctoral scholar’s Average Weekly Hours of Service during the IMP. An employee or postdoctoral scholar will be offered benefits beginning the first of the month following a 1-month administrative period following his/her one-year anniversary of hire, and continuing for a 12-month Initial Stability Period if the Average Weekly Hours of Service during the IMP meet the following thresholds:

<table>
<thead>
<tr>
<th>Appointment Type</th>
<th>Average Hours Threshold</th>
</tr>
</thead>
<tbody>
<tr>
<td>Group A</td>
<td>17.5 hours per week</td>
</tr>
<tr>
<td>Group B</td>
<td>30 hours per week</td>
</tr>
</tbody>
</table>

For example, a monthly postdoctoral scholar is hired on April 1, 2023 and is not initially eligible for benefits based on the Appointment Percentage and Duration. The postdoctoral scholar’s IMP starts on April 1, 2023 and ends on March 31, 2024. During the month of April 2024, the Average Weekly Hours of Service is measured. If the Average Weekly Hours of Service threshold for postdoctoral scholars (stated above in the chart) is met, the postdoctoral scholar is eligible for benefits starting on May 1, 2024 lasting until April 31, 2025. If the postdoctoral scholar does not meet the Average Weekly Hours of Service threshold as applied to postdoctoral scholars, the postdoctoral scholar will continue to not receive benefits from April 1, 2024 to December 31, 2024.

After the 12 month Stability Period has passed, all subsequent determinations of eligibility is based on the results of a Standard Measurement Period, described below.

b. **Standard Measurement Period** – An SMP is a period of time lasting one year, the dates depending on whether the employee is a monthly paid employee or a bi-weekly paid employee or postdoctoral scholar, and determines ongoing eligibility for benefits. The SMP takes place annually. The SMP for monthly-paid employees is November 1 – October 31. The SMP for bi-weekly paid employees is the pay periods between November 1 – October 31, and changes annually based on the year’s payroll calendar. As an example, the SMP for bi-weekly paid employees or postdoctoral scholars in 2024 runs from November 8, 2023 – November 5, 2024. During the SMP, the employee’s or postdoctoral scholar’s Average Weekly Hours of Service are calculated to determine benefits eligibility for the following Stability Period (described below).
The SMP applies to all employees and postdoctoral scholars regardless of initial eligibility or initial ineligibility for benefits, with the exception of those classes of employees who are ineligible for benefits as described in Part II.A.4. Employees who belong to the Ineligible Group do not participate in the SMP. Further, the SMP applies only to employees or postdoctoral scholars who have been employed throughout the entire current SMP. For example, a monthly paid employee or postdoctoral scholar who was hired on July 1, 2024 will not have been employed for an entire SMP until November 1, 2024 to October 31, 2025. The employee or postdoctoral scholar does not participate in the SMP administered in November 2024 (covering November 1, 2023 to October 31, 2024) because the employee or postdoctoral scholar was not employed throughout that entire SMP.

At the end of the SMP, UC will calculate the employee’s Average Weekly Hours of Service to determine benefits eligibility. The Average Weekly Hours of Service requirement for Group A and Group B is shown below:

<table>
<thead>
<tr>
<th>Appointment Type</th>
<th>Average Hours Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>Group A</td>
<td>17.5 hours per week</td>
</tr>
<tr>
<td>Group B</td>
<td>30 hours per week</td>
</tr>
</tbody>
</table>

If the employee or postdoctoral scholar meets the Average Weekly Hours of Service threshold for their group, the employee or postdoctoral scholar will be offered coverage throughout the duration of the subsequent Stability Period. The benefit package that is offered corresponds to the Employee’s or Postdoctoral Scholar’s Appointment Type and Duration. If the Employee’s or Postdoctoral Scholar’s Appointment Type(s) and Duration(s) do not meet eligibility for a specific benefits package, the employee will be offered Core Benefits and the Postdoctoral Scholar will be offered Postdoctoral Scholar Benefits. The Stability Period will be January 1 – December 31, following the current SMP.

If the employee or postdoctoral scholar does not meet the Average Weekly Hours of Service threshold for their group, then coverage terminates on December 31 of the current calendar year. The employee or postdoctoral scholar is ineligible for benefits from January 1 – December 31 of the following year unless the employee’s appointment changes to qualify under initial eligibility rules again.

In some instances, there is an overlap between the Stability Period that occurs as a result of the IMP and the employee’s or postdoctoral scholar’s first SMP. See examples below:

i. Employee/Postdoctoral Scholar Deemed **Eligible** for Benefits due to the IMP
a. If after the first IMP the employee or postdoctoral scholar is deemed eligible for benefits, coverage will extend beyond the employee’s or postdoctoral scholar’s second year anniversary of hire and into the current Stability Period.

b. The benefit package that will be offered to the employee or postdoctoral scholar will correspond with the employee or postdoctoral scholar’s current appointment percentage and duration. If the employee or postdoctoral scholar’s current appointment does not meet eligibility for benefits, the employee will be offered the Core Benefit Package and the postdoctoral scholar will be offered the Postdoctoral Scholar Benefits Package.

c. For example, an employee/postdoctoral scholar hired on January 1, 2022 is initially ineligible for benefits. At end of IMP, employee/postdoctoral scholar is measured and is eligible for benefits for the stability period of February 1, 2023 – February 1, 2024 (employee’s/postdoctoral scholar’s one year anniversary of hire and second year anniversary of hire). The employee/postdoctoral scholar is subsequently measured in November 2023, following the SMP of November 1, 2022 – October 31, 2023, and is deemed eligible for benefits for the Stability Period of January 1 – December 31, 2024. The employee’s/postdoctoral scholar’s benefits continue to the end of the SMP Stability Period (December 31, 2024).

ii. Employee/Postdoctoral Scholar Deemed Ineligible for Benefits due to the SMP

a. If after the first SMP the employee or postdoctoral scholar is deemed ineligible for benefits, coverage will end at the end of the employee’s or postdoctoral scholar’s current Stability Period.

b. For example, an employee/postdoctoral scholar hired on January 1, 2022 is initially ineligible for benefits. At end of IMP, employee/postdoctoral scholar is measured and is eligible for benefits for the stability period of February 1, 2023 – January 31, 2024. The employee/postdoctoral scholar is subsequently measured in November 2023, following the SMP of November 1, 2022 – October 31, 2023, and is deemed ineligible for benefits. The employee’s/postdoctoral scholar’s benefits will end on January 31, 2024.

Measuring continuing eligibility through the SMP will be done on an annual basis.

c. Stability Period – The Stability Period is the timeframe where the employee’s or postdoctoral scholar’s eligibility for benefits will remain stable, based on an IMP or SMP. For example, the Stability Period for an SMP that
occurs from November 1, 2023 – October 31, 2024 occurs from January 1, 2025 – December 31, 2025. The Stability Period for an IMP that occurs from September 1, 2022 to August 31, 2023 will take place on October 1, 2023 to September 30, 2024.

The employee’s or postdoctoral scholar’s eligibility remains the same throughout the Stability Period, regardless of the number of hours worked during the Stability Period, changes made to the employee’s appointment percentage and/or duration, and/or changes to their employment that does not result in a change in benefit package eligibility.

If an employee or postdoctoral scholar experiences an appointment change, and as a result the active appointment(s) does not support the continuation of the current benefit package, the employee will experience a change in benefit package. As an example, a Full Benefits eligible employee with concurrent Group A and Group B appointments will have their Full benefits package dropped to the Core Benefits Package if the Group A appointment terminates.

An employee or postdoctoral scholar with consecutive appointments will experience a change in benefit package if their active appointment(s) does not support the continuation of the current benefit package. As an example, a postdoctoral scholar who is eligible for the Postdoctoral Scholar Benefit Package will have their benefit package changed and awarded a benefit package under the Faculty/Staff Benefits Program at the conclusion of their postdoctoral scholar appointment.

If any of the events listed in Duration of Coverage (Section 1008) or Termination of Coverage (Section 1009) occurs, eligibility and coverage is subject to the timeframes associated with the event.

d. **Administrative Period** – The time period between the measurement period and corresponding Stability Period where UC determines an employee’s or postdoctoral scholar’s eligibility for benefits, as well as notify and enroll the employee or postdoctoral scholar and their dependents into UC sponsored coverage. The administrative period for the IMP is the month following the one-year anniversary of hire. The administrative period for the SMP is the months of November and December.

During the Administrative Period, the employee’s or postdoctoral scholar’s current eligibility continues for the duration of the Administrative Period.

e. **Exception** - Individuals who fall under these categories will not have their eligibility re-assessed during an SMP

i. Postdoctoral Scholar Paid Directs (job code 3254) and Postdoctoral Scholar Fellows (job code 3253)

Postdoctoral Scholar Paid Directs and Postdoctoral Scholar Fellows are not re-assessed for benefits at an SMP. Instead, Postdoctoral Scholar Paid Directs and Postdoctoral Scholar Fellows are re-
assessed for benefits if they experience changes in their appointment percentage and duration, in accordance to the CBA.

To gain or retain eligibility, the new appointment percentage and duration will be re-assessed under the following criteria:

<table>
<thead>
<tr>
<th>BENEFIT PACKAGE</th>
<th>Combined Appointment % and Duration</th>
<th>UCRP Membership Required?</th>
</tr>
</thead>
<tbody>
<tr>
<td>POSTDOC BENEFITS PACKAGE</td>
<td>50% or more and 12 months or more</td>
<td>NO</td>
</tr>
<tr>
<td></td>
<td>75% and 3 months or more, but less than one year</td>
<td></td>
</tr>
<tr>
<td>NO BENEFITS</td>
<td>DOES NOT MEET THE REQUIREMENTS FOR POSTDOC BENEFITS PACKAGE ABOVE</td>
<td>NO</td>
</tr>
</tbody>
</table>

If the Postdoctoral Scholar Fellow’s or Postdoctoral Scholar Paid Direct’s new appointment does not meet eligibility, the Postdoctoral Scholar Paid Direct or Postdoctoral Scholar will be disenrolled from benefits on the last day of the month in which the appointment change is effective.

iii. Individuals who have been separated and subsequently appointed to a “without salary” job code for research affiliation (e.g., Emeritus Professor, WOS), or a job code in the Volunteer Clinical Professor series (CTO 346).

iv. Graduate Student Researcher Fellows and Graduate Student Researcher Trainees

6. **Rehire Following an Employment Break**

a. **Rehires following separation of less than 26 weeks:**

At the time the rehire appointment is approved, evaluate and award new benefits package as appropriate;

1. Evaluate appointment percentage & duration; then

2. Evaluate for 1,000/750 hours. If the employee or postdoctoral scholar is eligible for benefits, award the highest level of benefits. If the employee or postdoctoral scholar remains ineligible for benefits, then
3. Evaluate for stability period. If the employee or postdoctoral scholar is in an active stability period, award Core Benefits for employees or Postdoctoral Scholar benefits for postdoctoral scholars and measure at next SMP

At new appointment for which benefits are awarded, provide a *beginning benefits eligibility period*.

b. **Rehires following separation more than 26 weeks:**

At the time the rehire appointment, evaluate and award new benefits package as appropriate;

1. Evaluate appointment percentage & duration; if not eligible, then

2. Evaluate for 1,000/750 hours. If the employee or postdoctoral scholar is eligible for benefits, award the highest level of benefits. If the employee or postdoctoral scholar remains ineligible for benefits, then,

3. Assign No Benefits and re-evaluate at the conclusion of the IMP.

At new appointment for which benefits are awarded, provide *beginning benefits eligibility period*.

c. **Exception: Rehired Retirees**

At the time of the rehire appointment, evaluate and award benefit package as appropriate. Generally, individuals who (1) have retired from UC employment, (2) are eligible for coverage through UC’s retiree insurance program, and (3) return to work in limited appointments are ineligible for active Health and Welfare benefits.

The continued inclusion of rehired retirees in the retiree health insurance program is subject to that program’s compliance with applicable Medicare Secondary Payer provisions and any retiree-only plan exceptions.

This policy is undergoing review.
B. Annuitant Eligibility

To be eligible for University-sponsored group health and welfare benefits, Retired Members, Disabled Members, and Survivors (collectively, Annuitants) must meet the eligibility requirements specified in Part IV of these Group Insurance Regulations. The Family Member Eligibility rules described in Part II.1.C., below, including the Family Member Eligibility provisions, apply to Annuitants, except to the extent provided in Part IV, Section 6002.

C. Family Member Eligibility

Eligible Employees, Annuitants, and Postdoctoral Scholars enrolled in a plan providing coverage for eligible Family Members may enroll themselves and their eligible Family Members, in accordance with the following. See Eligibility sections of each plan for limitations on Eligible Family Members. See Part II.D. for procedures for verification of eligibility of Family Members.

1. Subject to the requirements specified in C.2, below, eligible Family Members include the eligible Employee's, Annuitants, and Postdoctoral Scholar's:

   **Eligible Adult:**
   
   a. Spouse, or
   b. Domestic Partner

   **Eligible Child(ren):**
   
   a. The Employee's biological or adopted child, step-child, foster child, grandchild, step-grandchild, or legal ward.
   b. The spouse's biological or adopted child or grandchild (Employee’s step-child/grandchild), or
   c. The domestic partner's biological or adopted child or grandchild.
   d. Any child listed above (except a legal ward) who is over the plan’s age limit but who is incapable of self-support due to a physical or mental disability.

   **Ineligible relatives:**

   Relatives not eligible for coverage include, but are not limited to: in-laws, siblings, parents, former spouses or former domestic partners (including unions that have been dissolved due to divorce or death), former step-children, legally separated spouses, spouses of the children or grandchildren of the Employee or the Employee’s Spouse/Domestic Partner, cousins of the Employee or Employee’s Spouse/Domestic Partner, and new spouses/domestic partners of survivor Annuitants.
### 2. FAMILY MEMBER ELIGIBILITY REQUIREMENTS

<table>
<thead>
<tr>
<th>(Relationship is to Employee, Annuitant, or Postdoctoral Scholar unless stated otherwise)</th>
<th>PLANS ELIGIBLE FOR</th>
<th>DATE ELIGIBILITY BEGINS</th>
</tr>
</thead>
</table>

#### I. ELIGIBLE ADULT

Only one Eligible Adult may be enrolled in an Employee’s, Annuitant’s, or Postdoctoral Scholar’s University-sponsored plans. (A grandfathered Adult Dependent Relative enrolled prior to 12/31/03 qualifies as the one eligible adult; see “Grandfathered Eligible Family Members” at the end of this section.) A survivor Annuitant cannot enroll a new eligible adult. The Eligible Adult must be the same person for all plans.

(a) **Spouse: Must be**

The Employee’s or Postdoctoral Scholar’s legal spouse

Legal spouse may include an individual in a relationship with the Employee, Annuitant, or Postdoctoral Scholar that was established outside of California and that satisfies the requirements for recognition as a common law marriage under the laws of the jurisdiction in which it is claimed that the marriage occurred.

A legally separated spouse or a former spouse or former domestic partner is not eligible to participate in University-sponsored plans even if the separation or divorce settlement requires the Employee, Annuitant, or Postdoctoral Scholar to provide coverage.

---

4 **Partial year tax dependency:** If a Family Member for whom tax dependency is a requirement is a tax dependent for only part of the year, the following alternative legal documentation may be accepted in lieu of the tax verification requirement. In the event tax dependency is lost due to one of the following events, the supporting documents shown for each may be accepted.

- Divorce – A copy of the divorce papers as proof of eligibility loss.
- Change in custody – A copy of the custody agreement papers reflecting the change.
- Employment – If an enrolled child becomes employed, a letter from his/her employer which states the date of hire.

</tr>
</tbody>
</table>

See Administrative Supplement II-D for procedures for verification of eligibility of Overage Dependent Children.

A legal ward is not eligible.
2. FAMILY MEMBER ELIGIBILITY REQUIREMENTS

(relationship is to Employee, Annuitant, or Postdoctoral Scholar unless stated otherwise)

<table>
<thead>
<tr>
<th>PLANS ELIGIBLE FOR</th>
<th>DATE ELIGIBILITY BEGINS</th>
</tr>
</thead>
</table>

To Continue Coverage for an Overage Disabled Child:

An Employee, Annuitant, or Postdoctoral Scholar may apply to continue coverage under a University-sponsored plan for an overage disabled child if:
- the child was disabled and enrolled in the plan before age 26;
- the child is disabled and enrolled in the plan at the time application is made for continued coverage;
- application is made to the carrier before the child’s 26th birthday; and
- the carrier approves the application.

To apply for coverage for an Employee’s or Postdoctoral Scholar’s Overage Disabled Child:

Application for coverage may be made for the overage disabled child of a newly eligible Employee, or for a newly acquired overage disabled child of an eligible Employee under the same general terms as a disabled dependent child who is eligible to continue coverage past age 26 if:
- the disability began before age 26;
- the child had continuous medical coverage since age 26;
- application is made to the carrier during any PIE; and
- the carrier approves the application.

To apply for coverage for an Annuitant’s Overage Disabled Child:

Application for coverage may be made for a newly acquired overage disabled child of an eligible Annuitant under the same general terms as a disabled dependent child who is eligible to continue coverage past age 26 if:
- the disability began before age 26;
- the child had continuous medical coverage since age 26;
- application is made to the carrier during the child’s initial period of eligibility; and
- the carrier approves the application.

Operational procedures regarding continuation of coverage for overage dependent children of Employees or Postdoctoral Scholars may be found in Administrative Supplement II-D.

VI. GRANDFATHERED ELIGIBLE FAMILY MEMBERS (Inapplicable to Postdoctoral Scholars)

The following categories of family members were at one time eligible but are currently no longer eligible. Family members in any of the categories who were enrolled at the time of the change in eligibility rules may continue coverage as long as they meet the requirements below. If an Other Child enrolled before September 1, 1994 or an ADR enrolled before December 31, 2003 loses coverage due to the Employee’s Break in Service or for any other reason, that child or the ADR may not be reenrolled at a later date unless the child or ADR is otherwise eligible (for example, the child is adopted by the Employee). A Break in Service is described in Administrative Supplement II-E.

1) Adult Dependent Relative: Must be:
- Enrolled before 12/31/03
- Age 18 or older

Medical, Dental, Vision
n/a
• Incapable under California law of a valid marriage to the Employee because of a family relationship  
• Living with the Employee or in a convalescent hospital or nursing home  
• Claimed as the Employee’s dependent for income tax purposes  
• Ineligible for Medicare Part A – Adult dependent relatives reaching age 65 will be automatically de-enrolled unless documentation is provided proving ineligibility for premium-free Medicare Part A.  
• Continuously eligible and covered

A Survivor Annuitant cannot enroll an Adult Dependent Relative.

May only continue plans enrolled in as of 12/31/03; if coverage period is broken on or after 1/1/04, ADR may not be re-enrolled.

<table>
<thead>
<tr>
<th>2) Other Child: Must be:</th>

<td></td>
<td></td>
</tr>
<tr>
<td>• Dependent on the Employee for at least 50% of his/her support</td>
<td></td>
<td></td>
</tr>
<tr>
<td>• Claimed as the Employee’s dependent for income tax purposes</td>
<td></td>
<td></td>
</tr>
<tr>
<td>• Continuously eligible and covered</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

In addition, the eligible Employee must continue to have the legal right to authorize medical care for the child.
D. FAMILY MEMBER ELIGIBILITY VERIFICATION (FMEV)

Faculty/Staff and Annuitants

Overview – Upon receipt of notice and instructions from UC Human Resources, any Employee who enrolls another adult and/or child(ren) in a UC health or welfare plan must submit the documentation specified as necessary to verify that the individual(s) enrolled are the Employee’s eligible Family Member(s). This Section 3.D. applies for Plan Years 2013 and after. For 2012, see Administrative Supplement No. 26 in the previous GIR document (2012 Family Member Eligibility Verification Project).

FMEV Governing Documents – Administrative Supplement II-H and documents provided to Employees upon hire or re-verification describe the FMEV procedures and requirements and explain the consequences of the failure to comply with those procedures and requirements. Those documents may be amended or deleted from the FMEV process and new documents may be added, as determined by the Plan Administrator.

Appeals – If individuals enrolled as the Employee’s, Annuitant’s, or former Employee COBRA enrollee’s Family Member(s) (the “claimant(s)”) are disenrolled from UC-sponsored health/welfare plan coverage (i.e., coverage is cancelled) in accordance with the requirements described in the FMEV Governing Documents, the claimant(s) may appeal the cancellation of coverage in accordance with the FMEV Appeal Procedures described in Administrative Supplement No. II-C.

If the Employee has a grandfathered Adult Dependent Relative (ADR), the Employee must provide, upon request, documents supporting the ADR’s continuing eligibility (see Section 3.C. above).

In addition to the University requirements, the carrier or a third party administrator may also separately require documentation of a Family Member’s eligibility.

Notwithstanding any other provision in these GIRs, any individuals enrolled in a University-sponsored Plan can be disenrolled subject to the terms in these Regulations and in the FMEV documents (Section 1009).

Postdoctoral Scholars

Any Postdoctoral Scholar with enrolled family member(s) must provide, upon request, documentation verifying the relationship between the postdoc and the family member(s) to his/her local benefit office.

Documentation may include, but is not limited to:

• marriage certificate,
• birth certificate,
• adoption papers,
• for a domestic partner, either a copy of the California State Registry form or at least three of the following:
  • joint mortgage or joint tenancy on a residential lease
  • joint bank account
  • joint liabilities (for example, credit cards or car loans)

January 1, 2024
• joint ownership of significant property (for example, a car or house)
• durable property or health care power of attorney
• wills, life insurance policies or retirement annuities naming each other as primary beneficiary
• written agreements or contracts regarding the relationship showing mutual support obligations or joint ownership of assets acquired during the relationship.

In addition to the University requirements, the carrier may also separately require documentation of a family member’s eligibility.

Separate from and in addition to the family verification process described above, the Postdoctoral Scholar must, upon request, provide a copy of IRS form 1040 (or its IRS equivalent) showing dependents claimed for tax purposes and the employee’s or tax preparer’s signature for all family members for whom income tax dependency is a requirement.
