

## *Your Medicare Part D Prescription Drug Plan*

## **2012 Formulary** **(List of Covered Drugs)**

***PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION ABOUT  
THE DRUGS WE COVER IN THIS PLAN***

**Note to existing members:** This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

Beneficiaries must use network pharmacies to access their prescription drug benefit. Your formulary and pharmacy network may change on January 1, 2012. Depending on your former employer or union's renewal date, your benefits, premium or copayments/coinsurance may also change on January 1, 2012. Please refer to your Evidence of Coverage for information specific to your plan.

A stand alone prescription drug plan with a Medicare contract.

Call Customer Service at 1-866-470-6265, Monday through Friday, from 8 a.m. to 9 p.m. EST. TTY/TDD users should call 1-877-247-1657 for an alternate format or language.

# Part D Formulary

## What is the Plan's Formulary?

A formulary is a list of covered drugs selected by us in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. Your plan will generally cover the drugs listed in the formulary as long as the drug is medically necessary, the prescription is filled at a network pharmacy, and other plan rules are followed.

- If your Plan has a Closed Formulary (Closed Drug List), you have coverage for most, but not all, Medicare Part D eligible drugs. The drugs on this list are all approved by the FDA and are selected by the Plan with the help of a team of doctors and pharmacists. Not all drugs are on the Closed Formulary. The drugs covered under your plan are listed in this formulary booklet.
- If your Plan has an Open Formulary (Open Drug List), you have coverage for all Medicare Part D eligible drugs as well as coverage for certain additional drugs not typically covered by Medicare Part D plans. The additional drugs covered by your plan are all approved by the FDA and are selected by the Plan with the help of a team of doctors and pharmacists. The drugs covered under your plan are listed in this formulary booklet.

For both types of formularies, some drugs may sometimes be covered under the medical benefits of your plan rather than under the drug benefit of your plan. The drugs that are sometimes covered under your medical benefits are marked with a B/D in drug list.

To find out whether you have a closed or open formulary benefit, please check the benefit chart in the front of your Evidence of Coverage. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

## Can the Formulary change?

Generally, if you are taking a drug on our 2012 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2012 coverage year except when a new, less expensive generic drug becomes available or when new adverse information about the safety or effectiveness of a drug is released.

If we remove drugs from our formulary, or add prior authorization, quantity limits and/or step therapy restrictions on a drug or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 60 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 60-day supply of the drug. If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug's manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug.

We also evaluate new drugs as they come onto the market. As new drugs come on the market, we'll make a preliminary cost tier assignment. Once we have completed a full evaluation based upon effectiveness and safety, the drug may remain in the same tier or be placed in a lower cost tier.

The enclosed formulary is current as of **January 1, 2012**. To get updated information about the drugs covered by your plan, call Customer Service at 1-866-470-6265, Monday through Friday, from 8 a.m. to 9 p.m. EST. TTY/TDD users should call 1-877-247-1657. If any other type of approved formulary change is made during the year, we will notify you by sending you a list of these changes, or by sending you an updated formulary. The enclosed formulary is current as of 8/2011. To get updated information about the drugs covered by your plan, please call Customer Services at 1-866-470-6265, Monday through Friday, from 8 a.m. to 9 p.m. EST. TTY/TDD users should call 1-877-247-1657.

## How do I use the Formulary?

There are two ways to find your drug within the formulary:

**Medical Condition:** The formulary begins on page 1. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, “Cardiovascular Agents”. If you know what your drug is used for, look for the category name in the list that begins on page 1. Then look under the category name for your drug.

**Alphabetical Listing:** If you are not sure what category to look under, you should look for your drug in the Index that begins on page 60. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

## What are generic drugs?

Your plan covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

Many plans also cover a small group of \$0 copay Select Generic drugs. These are drugs which have proven over time to be especially cost effective options for treating some conditions. Your plan offers these drugs at no cost to you when you purchase them at a network pharmacy. You can find the list of \$0 copay Select Generic drugs on page VI. To find out whether your plan includes this benefit, please check the benefit chart in the front of your Evidence of Coverage.

## Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** Your plan requires you or your provider to get prior authorization for certain drugs. This means that you will need to get approval from us before you fill your prescriptions. If you don't get approval, your plan may not cover the drug.
- **Quantity Limits:** For certain drugs, we limit the amount of the drug that we will cover. For example, we provide 30 tablets per prescription for LEXAPRO. This may be in addition to a standard one month or three month supply.
- **Step Therapy:** In some cases, we require you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 1. You can ask us to make an exception to these restrictions or limits. See the section, “*How do I request an exception to the Plan's formulary?*” for information about how to request an exception.

## What if my drug is not on the Formulary?

If you learn that access to your drug is limited, for any reason, you have two options:

- You can ask Customer Service for a list of similar drugs that are covered by your plan. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by your plan.
- You can ask your plan to make an exception and cover your drug. See below for information about how to request an exception.

## How do I request an exception to the Plan's Formulary?

You can ask us to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- If your drug plan uses a closed formulary, you can ask us to cover your drug even if it is not on our formulary.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, we limit the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover more.
- You can ask us to provide a higher level of coverage for your drug. If your drug is contained in our non-preferred brand drug tier, you can ask us to cover it at the cost-sharing amount that applies to drugs in the preferred brand drug tier instead. This would lower the amount you must pay for your drug. Please note, if we grant your request to cover a drug that is not normally covered under your plan, you may not ask us to provide a preferred brand drug level of coverage for the drug.

Generally, your plan will only approve your request for an exception if the alternative drugs included on the plan's formulary, the lower-tiered drug or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary, tiering or utilization restriction exception.

**When you are requesting a formulary, tiering or utilization restriction exception you should submit a statement from your physician supporting your request.** Generally, we must make our decision within 72 hours of getting your prescribing physician's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get your prescribing physician's supporting statement.

## What do I do before I can talk to my doctor about changing my drugs or requesting an exception?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 30-day supply (unless you have a prescription written for fewer days) when you go to a network pharmacy. After your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility, we will cover a temporary 91-day transition supply (unless you have a prescription written for fewer days). We will cover more than one refill of these drugs for the first 90 days you are a member of our plan. If you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 34-day emergency supply of that drug (unless you have a prescription for fewer days) while you pursue a formulary exception.

## For more information

For more detailed information about your plan prescription drug coverage, please review your Evidence of Coverage and other plan materials.

If you have questions about your plan, please call Customer Services at 1-866-470-6265, Monday through Friday, from 8 a.m. to 9 p.m. EST. TTY/TDD users should call 1-877-247-1657.

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227), 24 hours a day/7 days a week. TTY/TDD users should call 1-877-486-2048. Or, visit [www.medicare.gov](http://www.medicare.gov).

## Your Plan's Formulary

The formulary that begins on page 1 provides coverage information about some of the drugs covered by your plan. If you have trouble finding your drug in the list, turn to the Index that begins on page 60.

The **first column** of the chart lists the drug name. Brand name drugs are capitalized (e.g., LEXAPRO) and generic drugs are listed in lower-case italics (e.g., *enalapril*).

The **second column** of the chart identifies the tier placement of each medication covered in your formulary. Many drug plans group drugs based upon cost with the lowest cost drugs in Tier 1. These are typically generic drugs. To find out what your copayment is for each drug tier, please check the benefit chart in the front of your Evidence of Coverage.

The benefit chart in your Evidence of Coverage will also tell you if the amount that you pay for covered drugs changes after the total drug cost paid by you and the plan reaches the initial coverage amount of \$2,930. Please check your benefit chart and Evidence of Coverage for complete details on the cost you must pay for drugs covered by your drug plan.

The **third column** tells you if your plan has any special requirements for coverage of your drug. The formulary chart legend, located on the next page, contains the list of special requirements which can be applied to drugs in your plan. The legend also gives you a description of the restriction and the code used in the drug chart to tell you that the restriction applies to a specific drug.

## Select Generics

(Please check the Benefit Chart in the front of your Evidence of Coverage to find out if your plan offers \$0 copay for Select Generic drugs.)

# Covered Medications by Therapeutic Category

## Legend

Generic drugs are shown in lowercase italics (e.g. *enalapril*)

Brand name drugs are shown in capital letters (e.g. LEXAPRO)

**QLL – Quantity Limits:** Restricts the frequency, amount or dosage of medication for which you can obtain benefits each time you get a prescription filled (most often set on a monthly basis).

**PAR – Prior Authorization:** The process of obtaining approval for certain prescriptions before benefits will be approved. You, your doctor or other network provider will need to request prior authorization before you fill the prescription.

**ST – Step Therapy:** The process of first trying a certain drug or drugs to determine if that drug or drugs will treat your medical condition before your plan will cover another drug for that condition.

**B/D – Part B vs Part D:** This drug may be covered under either your Part D prescription drug benefits or as a Part B drug under your medical benefits, as determined by Medicare.

**LA – Limited Access:** This prescription may be available only at certain pharmacies. For more information, consult your Pharmacy Directory or call Customer Service at the phone number listed on the front cover of this booklet.

**E – Enhanced:** This prescription drug is not normally covered in a Medicare Prescription Drug Plan. The amount you pay when you fill a prescription for this drug does not count towards your total drug costs (that is, the amount you pay does not help you qualify for catastrophic coverage). In addition, if you are receiving extra help to pay for your prescriptions, you will not get any extra help to pay for this drug.

**INJ – Injectable:** The drug is available in injectable form.

**MO – Mail Order:** Prescription drugs available through Mail Order.

[+] **Preferred:** The symbol [+] in the Drug Name column denotes preferred products.
