

UC Last, Best and Final Offer to UPTE: Market-Based Adjustments

UC has proposed raising and restructuring pay steps across multiple job titles, eliminating lower steps, adding steps at the top, and applying percentage increases to ensure fairer pay scales. The table below displays the proposed changes by job code and title, organized by location.

Updates to the step structure will be rolled out after the contract is ratified. Employees will see the changes take effect within 90 days of receiving written notice of ratification. Most step structure updates will be applied after the across-the-board (ATB) increase scheduled for July 2025, with a few specific exceptions noted below. Items marked with an asterisk (*) indicate adjustments to step structure and placement that will occur before the ATB increase is applied.

These changes mean higher earning potential, stronger career progression, and recognition of the vital work UPTE-represented UC employees perform.
